Current Comment

NOW IS THE TIME TO ACT

BY DWIGHT BENTEL

Since 1915—$25,000,000.

That is the tribute, in the form of increased pumping charges, new wells, new pumping units, which has been exacted from Santa Clara valley during the last 18 years by its rapidly falling water level.

For power necessary to raise the water from its greatly reduced level—$800,000 a year more than it would have cost in 1915.

To sink wells deeper, to drill new wells, to install pumps capable of supplying an adequate stream from a diminishing water supply—a minimum of $10,000,000.

Total—$25,000,000. And the water level is still falling. Falling in the face of a water shortage emergency that threatens Santa Clara valley with disaster. Falling down, down, down—116 feet since 1915—and still falling. . . . .

Down, down, down—at an average rate of five feet a year. Down below sea level, inviting salt water intrusion from San Francisco bay.

Down, down, down—21 feet last year alone, while farmers hastily lowered their pumps, and wondered where the money to pay their tremendously increased irrigating costs was to come from.

Down, down, down—more than 40 feet in two months during April, May, and June of this year in certain parts of the valley.

Down, Down. . . . . ?

It's got to hit bottom sometime. And when it does, that means disaster to Santa Clara valley, scientists agree.

Opportunity to avert this danger—to check the falling water level, replenish the seriously depleted underground reservoir, to restore the valley's wells—will be afforded the voters of the Santa Clara valley water conservation district next Tuesday when they will be asked to approve a $2,000,000 bond issue as their share of a proposed $2,683,000 water conservation program for this region.

Of this total amount, $683,000 has been promised by the Public Works Administration, not once but repeatedly, the money to be forthcoming as soon as President Roosevelt signs the public works appropriation bill.

This governmental action is expected within the next few days.

The remaining $2,000,000 will be a federal loan, to be repaid over a 25-year period at an average cost to the city lot owner of 75 cent a year; and to the average farmer, of 75 cents a year per acre of land.

These funds will be expended upon a waste water salvage program designed to divert billions of gallons of flood water which now wastes into San Francisco bay from valley streams to the natural underground reservoir.

Engineers declare that since 1915 740,000,000,000 gallons of flood water, or an average of 61,000,000,000 gallons a year, has poured from streams within the conservation district into the bay during brief periods of run-off after heavy rains.

On an averge, enough water has been thus wasted annually to supply all the needs of the City of San Jose for 17 years.

The obvious remedy to the present water shortage crisis is the salvage of this waste, engineers who have made a careful study of the situation declare.

"Use the waste to meet the need" is the basic principle of the conservation program, which will provide for "forced" percolation as an aid to the natural restoration of the underground reservoir.

Detention dams will be constructed to impound the annual flood waste until it can be released at a normal rate of flow over natural percolation areas, and thus be diverted to the underground water-bearing strata.

Spreading and percolation dams to assist this process will also be constructed.

The project will result in a total water salvage of 51,235 acre feet a year—will increase the supply available for Santa Clara valley wells by about 72 per cent.

This is sufficient to more than equalize the existing overdraft on the ground water supply. The underground water level will cease falling. The reserve supply will slowly be restored.

The water conservation project will furnish approximately 300,000 man-hours of labor—that is, it will employ 1000 men for a period of one year. Unemployment will be relieved, recovery progress will be speeded in the community. Local labor will be hired, materials will be purchased largely from local firms.

The project has the unanimous approval of civic leaders, business, professional, and industrial heads, labor, lodges, public organizations of all kinds. It deserves the enthusiastic endorsement of the voters at the polls June 19.

Miss Polly Maxon, daughter of Mr. and Mrs. R. Y. Maxon, who this spring received her degree in social science at the University of California, has accepted a position with Alameda county as a social worker.

Lloyd K. Wood Of Galt Is New C.H.S. Principal

Lloyd K. Wood, successful applicant in a class of 80 candidates for the position of high school principal here, was in town Tuesday getting acquainted with his new field of endeavor. He visited the school plant and met various members of the faculty.

Mr. Wood, a graduate of the University of California, possesses the degrees of bachelor of arts, bachelor of science and master of arts, comes to Campbell well recommended from Galt, where he served as principal for three years.

A major in economics, agriculture and school administration, Mr. Wood taught two years at College City, later becoming principal and serving in that capacity there for three years.

Mr. and Mrs. Wood and their small son and daughter plan to move to Campbell as soon as suitable housing facilities are arranged for.

Principal D. H. Cramer, whose resignation was made public two weeks ago, has signified his intention to accept a full-time teaching position in the mathematics department.

Grange Discusses Water Situation

Tuesday evening at the meeting of Orchard City grange Lecturer Mrs. M. F. Hughes presented a program on the water conservation project.

J. E. Wiesendanger opened the discussion with an explanation of the various portions of the project which will be voted upon by the people June 19. The project includes all reservoir and stream bed developments.

The need of water conservation was brought out by Mr. Wiesendanger in the striking story of his own experience with the wells on his orchard in Moreland district. Starting in 1915 with a well 110 feet deep and water standing at 48 feet, he now has a well 400 feet deep in which the water stands at 172 feet—a drop of 124 feet, and the power cost for pumping doubled.

Talks were also given by H. M. Shadle, S. N. Hedegard and Leroy Anderson. Many questions and much discussion followed, all resulting in the unanimous opinion that every one should not only vote for the project, but work hard to get out a 100 per cent vote for it on June 19.

Grammar School Commencement Thursday Night

Graduation exercises of the Campbell union grammar school will be held Thursday evening, June 14, at 8 o'clock in the auditorium.

A program of music has been arranged by Director A. A. Thielke, to be given by the grammar school orchestra.

Invocation will be asked by the Rev. J. H. Bennett, and Joseph E. Hancock, county superintendent of schools, will deliver the address of the evening and present the diplomas. Presentation of various other awards will be made by I. R. Abbott.

The graduates are Clyde O. Allen, David Belick, Martha Jane Bohrman, Frances Bucellato, Howard Carpenter, Jessie Costello, Mildred Ephriam, Delores Fellman, Beatrice Florez, Robert Flores, Frances Frisch, Celeste Furtado, Laura Furtado, Helen Gurukawa, Eileen Holmes, Donald Karnagel, Arthur Kealey, Charles Knight, David Knowles, Anna Kovach, Joseph Lamorte, Florence Lester, Walter LeWarne, Jack Lowrie, Anna Mazzone, Joe Mesi, Valeta Nichols, Francis Ono, Fred Peikert, Amaro Pereiera, Roberta Philips, Anthony Reis, Jr., Flora *Romano*, Evelyn Rowe, Stella Sanfilippo, Mildred Satariano, Albert Smith, Allen Smith, Maybelle Souza, Lois Starr, Raymond Swanson, Lukie Triolo, Elinor Tully, Angelina Turturici, Mary West, Esther Wilson, Joan Whitehouse, Donald York.

Farewell Party Honors Teachers

Miss Ruby Howes and Miss Muriel Carson entertained last Wednesday evening at a farewell party for Miss Dorothy Saunders and Mrs. Lee Cox, both of whom have resigned from the high school faculty. The party was given at the Freeman Howes home in Union avenue. Dutch whist was the diversion, and delicious refreshments were served at the close of a pleasant evening.

Guests invited to bid goodbye to Miss Saunders and Miss Cox were Mrs. D. H. Cramer, Mrs. Anna Dart, Mrs. Neil Best, Mrs. Lilian Rae, Mrs. C. E. York, Mrs. Harriet Hummel, Mrs. Freeman Howes, Mrs. Hattie Baugh, Mrs. Elfrieda Runge and the Misses Claribel Boesch, Elizabeth Thomas, Mae Farley, Helen Nielsen and Lois Gardner.

Funeral For Mrs. Alice V. Hutchins Held Tuesday

Funeral services were held Tuesday afternoon from the Amos Williams chapel for Mrs. Alice Hutchins, who passed away at her home in Campbell Sunday night from a heart attack. Interment was made at Oak Hill.

Mrs. Hutchins was the widow of the late Samuel Hutchins and had been a resident of Campbell for nearly 50 years. She had spent the past few years in San Jose and had just recently moved back to Campbell.

Surviving are three sons, Arthur of Los Altos and Harvey and Lee Hutchins of San Jose, and two brothers, Harly Johnson and Ross Thon of San Francisco.

Rebekah Lodge Elects Officers

New officers recently elected by Ada Rebekah lodge are Miss Muriel Wilson, noble grand; Mrs. Effie Howe, vice grand; Mrs. Lillian Ohlen, recording secretary; Mrs. Lillian Frasier, financial secretary and Josephine LaBarbara, treasurer.

These officers will be installed by Mrs. Clem Armstrong, district deputy president and her staff at the July 3 meeting.

Alumni to Honor Class of '34 With Dance at Annex

The 34th graduation exercises of Campbell union high school will be held Friday evening, June 15, at 8 o'clock in the grammar school auditorium.

Included on the program for the evening will be several selections by the high school orchestra and solos by members of the orchestra under the direction of A. A. Thielke. Talks will be given by members of the graduating class. Principal D. H. Cramer will present scholarship pins and the diplomas. Invocation and benediction will be asked by the Rev. J. H. Bennett.

The Campbell High School Alumni association is sponsoring a dance in honor of the graduating class at the annex immediately following commencement exercises, according to Dan Yeager, president of the association.

H. CRAMER ENTERTAINS AT DINNER

Hugh Cramer entertained a group of friends at dinner Friday evening at the home of his parents, Mr. and Mrs. D. H. Cramer on Winchester road. Following dinner, host and guests attended the junior-senior reception at the annex.

Enjoying the evening with Hugh were Jeannette Willington, Ruth Farman, Helen Robinson, Alice Johnson, Richard Morton, Philip Farley and Horace Person.

Funds with which to pay for this advertisement have been donated by public-spirited business men, orchardists, and farmers who realize the apalling seriousness of the present water situation

The FARMERS CORNER

by RALPH H. TAYLOR
Executive Secretary
Agricultural Council
of California

Of all the emergency work programs initiated by President Roosevelt in his fight against depression and unemployment, the Civilian Conservation Corps program—designed especially to aid the youth of the nation—undoubtedly ranks as one of the most successful, if the projects are evaluated both from the standpoint of temporary relief and permanent benefits.

Balancing the ledger on the CCC camps for the first year, the forest service of the United States Department of Agriculture finds that more than 600,000 young men were employed, and that their earnings—paid to the boys add to $77,000,000.

In addition, approximately $145,000,000 went into the purchase of equipment and supplies for the camps, thereby helping business and industry.

But of even greater importance, the work provided was on constructive forestry and conservation projects, productive of lasting benefit not only to the men themselves but also to the economic life of the country. "It has benefitted the health and morale of these youths, trained them in vocations and aided in their education," reports S. B. Show, the regional forester.

California, due to the fact that more of the camps were located here than in any other state, will share largely in the permanent benefits of the emergency program, according to forester Show. To California agriculture, the work will pay cash dividends, he declares, both in increased protection from fire losses, and in flood and erosion control.

During the first year of the CCC camps in California, the new construction included 923 miles of fire breaks, 2,225 miles of truck trails, 1,332 miles of telephone lines, 2,173 miles of clearing along roads and trails, fireproofing of 37,124 acres of forest land, 321 miles of horse and foot trails and the clearing of 1,262 acres for public camp grounds.

Erosion control work was completed on 6,940 acres; eradication of the pine bark beetle was undertaken on 17,105 acres; more than 2,000 acres were re-forested; tree and plant disease control work was carried on extensively; topographic surveys covered some 100,000 acres; 414 bridges and 130 ranger and guard stations were built, and 104 acres were cleared for airplane landing fields. The emergency workers also served as fire-fighters, according to the report, and saved thousands of dollars in fire losses.

The forest service, due to long-term plans for the protection and development of the national forests, prepared years in advance, was a dominant factor in making the emergency program a practical program, with lasting benefits.

From the standpoint of the taxpayer, however, the CCC projects have also brought a new problem—the requirement for new appropriations to maintain the physical improvements, such as fire breaks, roads and trails, telephone lines, look-out towers, ranger stations and public camp grounds.

It is a problem familiar to the individual in his everyday life. A larger house inevitably means higher taxes, higher upkeep and greater overhead. And every addition to the house of government likewise brings an upward in the cost of maintenance.

The only sound approach to the problem is to balance costs against probable savings. Permanent improvements which have cost many millions of dollars should not be lost or impaired for lack of maintenance, if the benefits—in actual cash savings and increased earnings—are substantially greater than the cost of upkeep.

But it is equally true that the taxpayer canot afford to maintain uneconomic projects which came into being solely as a result of emergency conditions. There must be sound and honest appraisals in Washington if the nation is to salvage much of permanent, practical value from the billions spent in "artificial respiration."

Campbell C.Y.O. To Meet San Francisco Sunday

The fast San Francisco C. Y.O. nine, a strong favorite to capture the California state championship, will meet the local C.Y.O. team at Sodality park this Sunday, June 17.

The game is of great importance, for the winner is conceded a better than even chance of winning the finals at the Seals stadium June 23 and 30 against Los Angeles.

Gabe Padilla, captain of the Burbank-Campbell nine, scouted the San Francisco team last Sunday and came back convinced that the local boys will have to be at their very best to win. Athenour, Campbell pitcher, will be opposed by the sensational, fast-ball chucker McDonald. The official Mid-Winter league umpires rate the San Francisco team stronger than any other Mid-Winter league team, so it will be a great day for Burbank-Campbell if they defeat them. They had a close call in the San Mateo game, trailing 2-4 until the ninth inning with two out, when Kulish, J. Brayevich, Gurkovich and P. Brayevich smashed successive hits for a four-run rally. P. Brayevich is hitting at a 435 clip for the season.

Burbank-Campbell will line up: J. Brayevich, c.f.; Gurkovich, s.s.; P. Brayevich, 2 b.; L. Franks or Padilla, 1b; G. Franks, 3b; P. Olympie, c.; T. Rebello, 1b.; Kulish, r.f.; Athenour, p.

The game will start at 2:30 p.m. Fr. Lynch, who manages the team, hopes that Campbell baseball fans will attend in support of their team.

Pension Plan Boosters Organize

Saturday evening exponents of the Townsend old age pension plan met at the grammar school kindergarten room to organize a local club. Geo. S. Robson was elected president, Mrs. E. A. Barker, vice president; Mrs. M. E. Purmort, secretary-treasurer, and H. M. Shadle, Mrs. C. L. Watson and T. J. Henderson, board of trustees.

Dr. Charles S. Knight, San Jose pastor, will speak on the pension plan at the grammar school this evening.

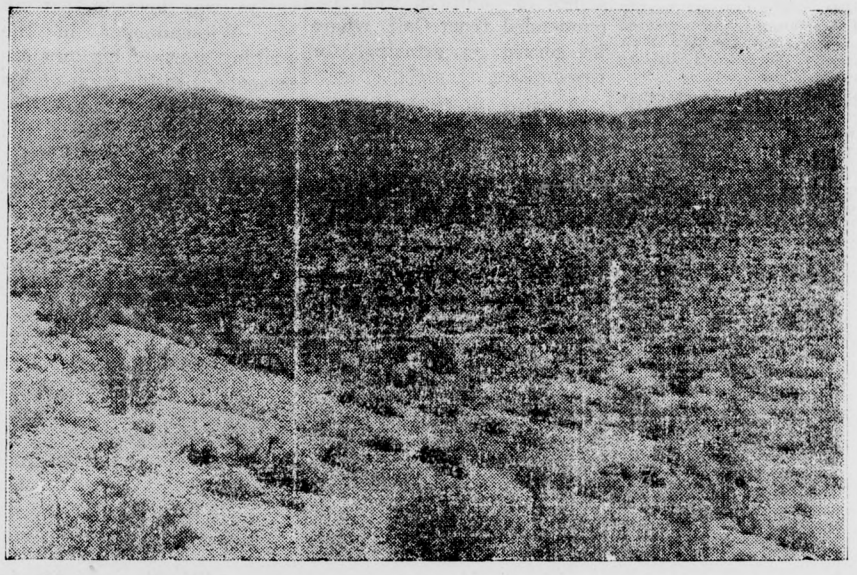
Today and yesterday. Santa Clara Valley, endowed by nature with a bountiful supply of water. Its beautiful orchards and crops have gained notoriety thruout the entire world—a happy place to live and raise families.

A desert scene. Parched, arid land. No human habitation, no plant life but scrubby growth and cactae. This may soon be the situation of the Santa Clara Valley unless immediate action is taken to conserve our water.



FACE THESE FACTS SQUARELY

- Our water level is falling. Our wells upon which we depend have dropped approximately 116 feet in the last twenty years.
- Pump costs are prohibitive. In the last few years more than ten million dollars have been expended in installing larger pumps in order to raise the water from its greater depths. Engineers estimate that pumping charges are $800,000 a year greater than they would have been if the water table were at its 1915 level.
- Salt water is seeping in. In over 51 percent of the district the water level in 1933 was standing below sea level. This is an open invitation for salt water seepage—an impending disaster that must be averted. Areas once made barren by salt seepage are permanently so.
- Our present waste will meet the need. Measurements made by the U. S. Geological Survey show that more than forty-one billion gallons of water are wasted from our streams into the San Francisco bay each year—enough to supply the city of San Jose alone for seventeen years. This conservation plan saves this waste and returns it to the underground storage from which we have been pumping without replenishment.
- Now is the time. We are courting disaster to postpone a comprehensive water conservation plan. We must conserve this waste water. The plan is simple and has the unanimous approval of engineers here and elsewhere. It is heartily endorsed by every civic-minded individual, group or community in the entire district. One cannot be correctly informed and fail to vote "Yes" next Tuesday.

Draft of Prune Marketing Plan In Washington

San Francisco — Members of the California Prune Pool gathered at the Palace hotel here Monday, received reports and figures indicating, in the words of President Hugh Hersman, that during "world wide depression prunes have pressed far ahead of other agricultural crops."

"Prunes during this crop year," said Hersman, "are bringing better prices than they have at any time in the past four years. They are more nearly at parity with the price level of things the farmer must purchase than they have been at any time during the past 12 years, with the single exception of 1929. Prune prices have far outstripped the commodity index of agricultural crops and returns to prune growers today more nearly approach the cost of production than they have for many years in the past."

Both Hersman and E. W. Stillwell, general manager, spoke optimistically of the negotiations now going on for a marketing agreement under the federal agricultural adjustment act. This would have the effect of bringing into the industry control movement 100 per cent of California's prune growers as compared with the 80 per cent who are now under the organization of the United Prune Growers of California. A tentative draft of this agreement has gone forward to Washington with the approval of the growers' and packers' representatives and an early public hearing is expected.

Initial advances to growers on the 1933 crop were made much more promptly than in 1932 as a result of more favorable financing arrangements, General Manager stillwell pointed out. He added that two payments together representing about 65 per cent of United's opening prices have been made to Pool growers to date this year.

"The total amount paid out," Mr. Stillwell reported, "is approximately $2,270,000, nearly double the approximately $1,340,000 poid on the 1932 crop up to this time a year ago. Expressed in dollars per ton, the Pool has advanced to its members $51.25 this year, compared with $33.08 to this time last year. In addition Pool growers have had the use of the money received from packers on the open one-third of their tonnage."

Legislative matters were discussed by Dwight K. Grady, vice president of the Dried Fruit association of California.

Advertising and trade promotion activities covering not only the United States, but also England and Sweden were outlined by Ray H. Randall, advertising manager of the United Prune Growers of California and K. C. Ingram, San Francisco manager of Lord and Thomas. The scientific research and educational work being done for the prune industry was discussed by Marjory Gilbreath, of the Dried Fruit Research Institute.

Dr. F. R. Wilcox led a discussion of marketing agreements and George D. Gilman submitted a report on grading and handling of prunes.

COTTRELL ANNOUNCES CANDIDACY

I wish to announce that I shall be a candidate to succeed myself as a member of the Assembly from the 31st Assembly district. I feel that I owe to the people of my district and the citizens of Santa Clara county the benefit of the experience gained during my first strenuous session in the legislature of this state.

Two years ago, when I was the successful candidate for this office, the main issues of the campaign were reduction in governmental expenses and immediate relief to distressed taxpayers. I point with pride to a few of the measures that I not only voted for but for whose passage I fought and these bills, a few of which I list here, speak for themselves. They are the moratorium on tax payments, remission of delinquent tax penalties, reduction of tax penalties, prevention of personal property tax evasions, special assessment relief, refunding acts to aid special assessment districts, mortgage moratorium, repeal of ad valorem assessment acts, modification of the law respecting trust deed and mortgage forclosures and deficiency judgments, transfer of school support to the state, elimination of special attorneyships to various boards and the concentration of these attorneyships under the attorney general of the state, and a general reduction of state expenditures over which the legislature had control amounting to 30 per cent.

The battle for governmental efficiency and economy has just started. We have only scratched the surface. I pledge myself to a renewal of the battle in order that we may save for democracy our educational system which is democracy's foundation, and other essentials of government and still provide money for human social relief so vitally necessary today.

I submit myself to the electorate of my district for their endorsement strictly upon my record of past accomplishments.

C. C. Cottrell

Mr. Cottrell was born in San Jose, is a graduate of the local schools, and is also a graduate of Stanford university.

Harry L. Todd Lines Up With Young's Campaign

San Francisco, June 13—Richard W. Barrett, campaign director for C. C. Young in the former governor's gubernatorial candidacy for the Republican nomination Aug. 28, today announced that Harry L. Todd, former chairman of State Treasurer Charles G. Johnson's executive campaign committee, had been added tothe executive committee of Young.

A. D. Rice and son Arthur returned last week from a two months' motor trip in the middle and southwest.

Miles Standish was host at a dinner Friday evening at the home of his parents, Mr. and Mrs. A. M. Standish of Virginia avenue, for a number of his schoolmates at San Jose state. White and gold, the college colors, were used in the table decorations.

RE-ELECTION IS SOUGHT BY JUDGE BLAINE

Paper filed with the county recorder this week reveal the fact that John D. Blaine will seek re-election as justice of the peace in Campbell township. He states that he will again stand upon his record of seven and one half years in office with no reversal in higher courts on appealed cases.

Judge Blaine was appointed to the office when the township was separated from Santa Clara township nearly eight years ago.

The weekly meeting of the Parents' Forum, conducted at the Congregational church by the Rev. J. H. Bennett, will be discontinued until fall.

Mrs. James Burns, Mrs. Earl Eddlemon and Mr. and Mrs. Warren Eddlemon returned this week from a trip to Oregon.

NOTICE

Anyone wishing to donate old clothes, shoes, dishes or furniture to the Congregational Women's guild will please phone Campbell 93 or Campbell 80.

Glenn C. McCoy and Ethel Carlson of Campbell were married at Reno Saturday.

L. C. Shank was a business visitor in Campbell a few days this week. The Shanks are vacationing at Lake Tahoe.

C. T. Fawcett spent the week-end with Walter Smily at the latter's cottage at Redwood Estates.

Mr. and Mrs. James Knappen of Marysville and Mr. and Mrs. H. C. Smith were breakfast guests at the R. H. Knappen home Sunday.

Mr. and Mrs. John Lund spent the week-end in Modesto visiting their son-in-law and daughter, Mr. and Mrs. Leo Hedegard.

Mr. and Mrs. S. N. Hedegard and Mr. and Mrs. C. S. Hedegard of Cupertino spent Saturday at Dos Palos.

Jack Murdock was elected noble grand of Morning Light lodge at a meeting held in the hall Thursday night. H. E. Hansen was elected vice grand and Julius Bachman, trustee. Installation ceremonies will be held at a meeting next month.

Group 3 of the Congregational Women's guild will sponsor a fried chicken dinner Wednesday evening, June 20, in the church parlors. Reservations may be made by phoning Mrs. S. N. or Mrs. Horace Per

A SUMMER discount
Buy and Install Gas Heating now SAVE 10%
Purchase Payments deferred UNTIL OCT·1st
PAY LATER

WHY is there a Summer Discount on gas heating equipment?
The gas heating equipment trade makes you this special offer to create work for its skilled crews of installation mechanics during the off-season summer months. It helps them maintain these skilled men in year-round employment. So there is passed on to the customer a 10% discount on the cost of both equipment and installation at this time.
You gain in many ways by having your gas heating equipment installed now. You save first of all a full 10% on the total cost of equipment and its installation. Your equipment is installed with more careful workmanship than is always possible during the winter heating season rush. You get immediate installation although monthly payments for both the equipment and installation do not begin until October 1.
...FOR EXAMPLE...
On a Central Warm Air Furnace *You Save* from $20 to $30
On a Steam Heating System . . *You Save* from $30 to $50
On a Floor Furnace . . . . . *You Save* from $9 to $15
On a Radiantfire . . . . . *You Save* from $2 to $8
On a Circulating Heater . . . *You Save* from $3.50 to $7
On a Gas Steam Radiator . . . *You Save* from $3 to $5

NOTICE CALLING FOR BIDS FOR SCHOOL BUS CHASSIS AND BODIES

Pursuant to an order of the Board of Trustees of the Campbell Union High School District of the County of Santa Clara, state of California, notice is hereby given that the said Board will receive bids up to the hour of 7:30 o'clock, P. M., on the 16th day of June, 1934, at the office of the said Board in the High School building in Campbell, Calif., for the furnishing of the following described personal property to wit:

Two Indiana Model 14B Special Bus Chassis, listed as such by manufacturer having State School Bus rating of not less than 18,000 pounds gross. Engine to be 6 cylinder "L" head type and developing not less than 176 torque feet pounds. Crankshaft to have 7 main bearings of not less than 2 1-2 inches diameter. Full floating rear axle, single reduction, with spiral bevel gears. Brakes to be 4 wheel hydraulic internal expanding with BK vacuum booster. Emergency brake disc type mounted on propellor shaft. Springs all semi elliptic, rear to be two stage underslung not less than 60 inches long. Wheels Budd disc with one spare wheel. Tires not less than 8.25x20, dualed rear. Frame to be pressed steel channel with kick up over rear axle providing ample clearance under load, having a minimum depth of 8 inches at point of maximum stress, minimum flange width of 2 3-4 inches and a minimum thickness of 1-4 inch. Width of frame to be not less than 42 inches. Capacity of gasoline tank at least 35 gallons. Chasis to be equipped with crown front fenders, front bumper, complete tool kit, electric starting and lighting equipment, electric horn, oil and gasoline guages, heat indicator, ammeter, dash light, speedometer and long exhaust pipe. Said Board reserves the right to reject any and all bids.

Board of Trustees of Campbell Union High School,
By Jessie Shelley, clerk.

CITATION—NO.7076

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SANTA CLARA
SITTING IN SEPARATE SESSION AS A JUVENILE COURT

IN THE MATTER OR VIRGINIA JOHNSON, A person under the age of twenty-one years.

TO ROBERT JOHNSON and VIRGINIA JOHNSON and to all relatives of said minor child within the State of California, and to the CHILDREN'S HOME SOCIETY OF CALIFORNIA, a corporation:

GREETINGS:

YOU ARE HEREBY NOTIFIED that there has been filed in the above entitled Court a verified petition showing that the above-named person comes within the provisions of subdivision I of Section 15 of the Juvenile Court Law of the State of California;

BY ORDER OF THE COURT, you are hereby cited and required to appear before the Superior Court of the State of California, in and for the County of Santa Clara, Sitting in Separate Session as a Juvenile Court, at the Court Room of said Court, located in Juvenile Hall, at the northeast corner of Market and St. James in the city of San Jose, California, on the 10th day of August, 1934, at 2 o'clock P. M. of said day; and then and there to show cause, if any you have, why said person should not be adjudged free from the custody and control of her presumptive father, Robert Johnson, according to said verified petition.

WITNESS WM. F. JAMES, Judge of the Superior Court of the State of California in and for the county of Santa Clara, Sitting in Separate Session as a Juvenile Court, and the Seal of said Court this 7th day of June, 1934.

ATTEST my hand and seal of said Court the day and year last above written.

(SEAL) Henry A. Pfister, County Clerk
By Donald Bean, Deputy

KIWANIS NOTES
By Heck

All Kiwanis night was very fittingly observed Monday evening at Campbell when the Los Gatos club united in the program.

President Guy Farley called the meeting to order at the international hour of universal session. Following "America" and "God Save the King," Secretary W. R. Morgan read the international president's address.

Stunt singing by the boys and men under the direction of the Rev. Todd Gilmore of Los Gatos proved very enlivening.

Loud were the praises sung of the excellent music furnished by a group of high school musicians, who gave violin, clarinet and trumpet numbers. These players had appeared at several other Campbell functions and the community is proud to show them to our neighbors.

Reports were given by various alibiers of the golf bout and the cry is still, "when do we eat?"

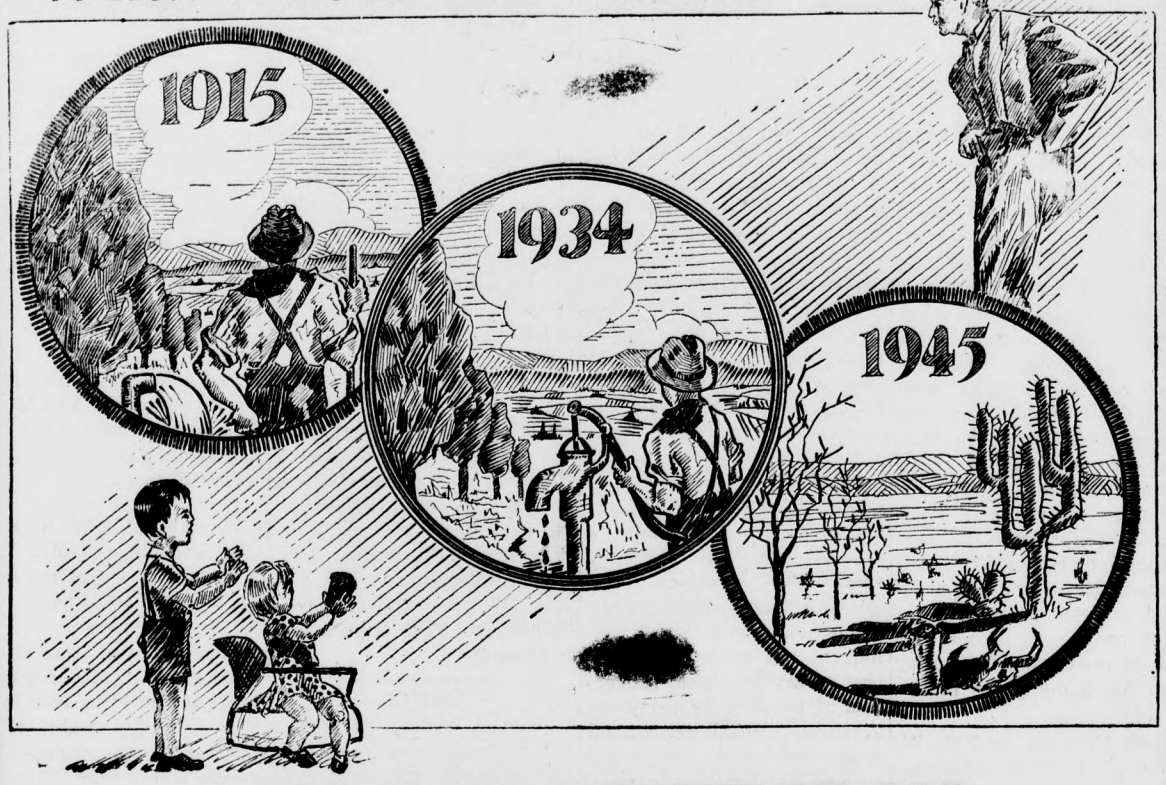
Ed Place, president of Los Gatos club, then introduced the speaker, Judge William James of our superior court, who gave an interesting talk on the work and worth of the juvenile court in regard to its care of the boys and girls who have "just stepped out of line." He stated that the world is just awakening to the practical meaning of that famous plea, "Suffer the little children to come unto me." He recited several pracal applications of this very thought, and declared that in the end the youth knows he has found a friend, rather than feeling resentful against the judge and courts.

Judge James said that criminals are not born; behavior patterns are not inherent, and the step out of line has been caused by some unfortunate mishap or defect.

He announced his belief that the youth of today is the finest ever and the ideal is still that of doing right because it is right. Proper training and discipline is needed to keep many children in line.

Dr. T. A. Schwarz of Stanford will speak on "The Rise of the Nazi Movement in Germany" Tuesday noon.

What About the Future?



THERE IS NO SUBSTITUTE FOR
WATER

It's a plain, unadorned fact—not fancy—that unless we take immediate action to conserve and replenish our water supply Santa Clara Valley is facing a dismal future. When we realize that our wells have dropped 116 feet since 1915; when we know that they dropped 21 feet last year; when we find that salt water is seeping in, that trees are dying, that our valley is drying up, then we realize that we must act if the future, and our children's future, in the Santa Clara Valley is to be the bright one we have hoped for.

AN EMERGENCY! ACT! VOTE "YES"!

WATER CONSERVATION

Funds with which to pay for this advertisement have been donated by public-spirited business men, orchardists, and farmers who realize the appalling seriousness of the present water situation

Mrs. Brandenburg Presents Piano Pupils In Recital

Mrs. Emily Pannell Brandenburg will present her younger pupils in a musical Friday afternoon, June 15 at 3 o'clock at Campbell community hall.

The following children will appear on the program: Geraldine Lloyd, Elizabeth Wight, Katherine Perrott, Bertie Lee and Daryl Farnham, Phyllis and George Pierson, Lois and Emily Bohnett.

Friends of the teacher and pupils are most cordially invited.

Mrs. J. C. Ainsley was hostess to a group of friends at her home Friday for luncheon and bridge.

HIGH SCHOOL ACTIVITIES

By Bob Burrow

The student body held a program meeting Tuesday morning. On the program were Vincent Fratangelo, who played a number of saxaphone solos; Francis Smith, who played a piccolo solo, and Hugh Cramer and David Bohrman, who played a violin duet. Jeanette Wellington accompanied the players on the piano.

Judge Percy O'Connor gave a talk in which he compared the communist type of government with that now prevailing in this country. His remarks were well received.

Athletic awards were given out by Miss Howes and Mr. Noddin.

Fifty boys, their parents, and school officials attended the dinner given by the high school Future Farmers of America held in the grammar school cafeteria Wednesday evening. Talks were given by Mrs. Louis Shelley and Mortimor Vennum, school trustees, and by Principal D. H. Cramer, C. E. York, and Will Lester and Lawrence Buehner, members of the Future Farmers who have carried out prize-winning projects during the past year.

Nick Boyto, president of the club, presided. Leo Thiltgen was chairman of arrangements.

The annual junior-senior reception was held at the annex Friday evening. Committees in charge were Reynold Keesling, Bob Burrow, Violet Rowe, John Talia, Teddy Cutting, Frances Chesney, May Chesney and Gordon Stafford, refreshments; Miss Dorothy Saunders, decoration; Anthony Greco, Clifton Crothers, Paul Arnold and Jerry Condensa, clean-up; Dennis Bennett, Betty Best and Willard Wagner, orchestra; Jeannette Wellington, Homer Hyde, Norma Famatre and John Talia, invitations; Dennis Bennett and Mr. Noddin, tickets.

An unusually large crowd of parents and friends attended "class night" exercises at the grammar school auditorium Tuesday night. The program included music, the reading of the 1934 class will and prophesy, and other features.
